EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows: nonelected claims (without traverse) 1-9 have been canceled.

REASONS FOR ALLOWANCE

2. Claims 10-12 and 21-22 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art of record does not anticipate nor render obvious to one ordinary skilled in the art a method of fabricating reflection liquid crystal display device comprising a combination of various steps as claimed, more specifically, exposing the photosensitive resin layer to light through a transparent sheet having a surface provided with minute irregularities after drying the photosensitive resin layer, subjecting the exposed photosensitive resin layer to a developing process and drying the developed photosensitive resin to form an insulating layer having a surface provided with minute irregularities and forming a reflective metal film on the surface of the insulating layer provided with minute irregularities.

Shimada ('507) discloses a method of fabricating reflection liquid crystal display device comprising exposing the photosensitive resin layer to light through a sheet having a plurality of holes of different sizes, a reflective metal film on the surface of the insulating layer provided with minute irregularities. However, Shimada fails to disclose the above distinct limitations, more specifically, exposing the photosensitive resin layer to light through a transparent sheet having a surface provided with minute irregularities after drying the photosensitive resin layer.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
